

Climate Smart Communities Task Force
April 24, 2023 Workshop
Minutes

Meeting began at 3:30pm

Attendees:

Ron Till – Task Force Coordinator

John Hartman – Mayor, Village Board Liaison

Marty Schooping – RIT NYS Pollution Prevention Institute

Ron set up a meeting with Marty to take a look at village buildings in anticipation of the NYSP2I conducting an energy audit. Ron and John took Marty through the village office building and the DPW garage for him to get an idea of what would be needed to conduct an audit.

There would be no cost to the village for the audits.

Marty can do an audit, but his team is backed up several months and won't be able to begin until the fall at the earliest. Ron to check back with Marty occasionally for updates.

John thought that Star of the West would benefit from an audit too. He will give Marty's contact information to Mark Rippe @ SotW.

Ron is having problems logging in to the portal. Rachel is helping to figure out the problem.

Meeting adjourned at 5:00pm
