

Climate Smart Communities Task Force
June 6, 2023
Minutes

Meeting began at 3:30pm

Attendees:

Ron Till – CSCTF Coordinator

Paula Randall – Member

Daryl Chesly – Member

Chris Cameron – Member

John Hartman – Mayor, Village Liaison

Ron gave updates on several items:

- No information from Marty Schooping yet on the energy audit. They are short staffed and still backed up. We will need a contract with them before they can begin. Ron to reach out to Marty again in a few weeks.
- Chris has another contact that may be able to help if Marty (NP2I) cannot. This will likely not be a cost-free option.
- Ron talked with Bob Matil, president of the Churchville Volunteer Fire Dept, about getting historical electric and natural gas usage for the fire station.
- Ron has collected the Village electric usage. There is a noticeable decrease in electric usage with the installation of the three new heat pumps.
- Kayla is helping to collect information on village vehicles
- Has finally been able to log into the portal.

Paula will take photos of the Black Creek trail near the village office. This is the area the county helped clear earlier this month, and is a project in our NY Forward application.

Discussion about public outreach during the Walk-about. Will have information available on IEEP rebates, would like the FLIR camera and Kill-a-volt.

Meeting adjourned at 4:45pm
